

## WHICH AGE IS THE BEST?

Imagine that you are seventy years old. Based on your own experiences, goals, and future dreams, how might you fill out this chart at different points in your life? When you get to ages far older than you are now, think how your parents, relatives, and other adults in your life might answer.

*John M. Daniel*

At ten I received a letter from the man I would become. "I've learned to correspond across the years," it said. "Enjoy your youth."

At forty, I received the boy's reply: "I can't wait to be your age."

I wrote the next letter forward thirty years. "I hope you're well."

My letter was returned unopened.
